

MODEL BTC-150

Track Carrier

72" Forestry Mulcher
30" diameter Stump Grinder

The BTC-150 is a machine built especially for right-of-way maintenance and light land clearing companies that need a **reliable and powerful machine** that doesn't skimp on creature comforts for the operator. Bandit designed the BTC-150 from the ground up to **deliver superior performance and class-leading comfort**.

NEVER SACRIFICE COMFORT

The roomy, ROPS/FOPS/OPS certified cab on the BTC-150 features all the trimmings to keep an operator comfortable during the long days of grinding and mowing. Ballistic-grade polycarbonate glass provides a superior view of the mower or stump grinder, and a thermal insulation reduces outside noise while keeping the inside quiet and regulating the temperature.

POWERFUL TRACK UNDERCARRIAGE

The BTC-150 is equipped with a powerful CAT 308 steel, rubber or segmented undercarriage. The wide track stance also allows for improved turnability, and a speedy 4.25 MPH track speed means the machine will move quickly.

MAXIMIZE YOUR UPTIME

The BTC-150 is designed from the ground up to be easier to work on, making common maintenance items easy to access for quick daily startup checks. The mower head and the stump grinder head use quick coupler hydraulic lines so changing from one head to another is a snap, taking less than 10 minutes.
